

//Body

The screenshot shows the Visual Studio Code editor with the file 'App.js' open. The Explorer sidebar on the left shows the project structure, including 'PROJECTNATIVE' and various configuration files. The main editor area displays the following code:

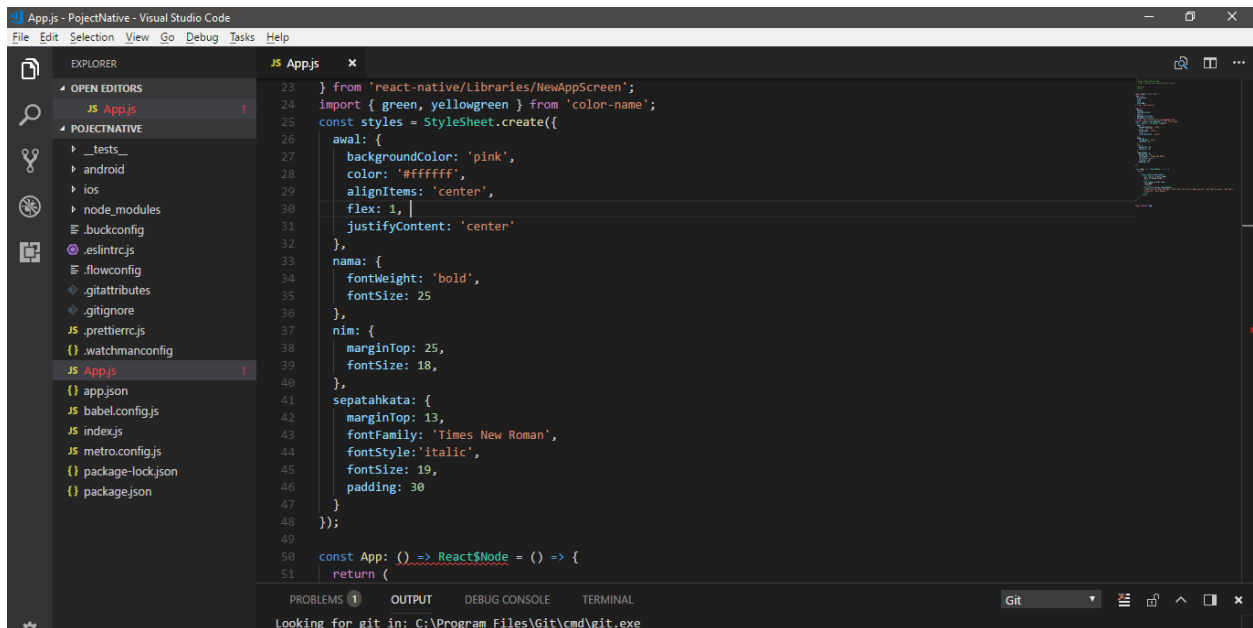

```
import { StyleSheet, Text, View } from 'react-native';

const styles = StyleSheet.create({
  container: {
    flex: 1,
    padding: 30,
  },
});

const App = () => React$Node = () => {
  return (
    <View style={styles.container}>
      <Text style={styles.name}>
        Nico Fernando Hondo
      </Text>
      <Text style={styles.nim}>
        192119087
      </Text>
      <Text style={styles.sepatangkata}>
        ("When you Get What you Want, thats God's direction, When you don't get what you want, that God's
        Protection ~ Nico Hondo")
      </Text>
    </View>
  );
};

export default App;
```

//Css

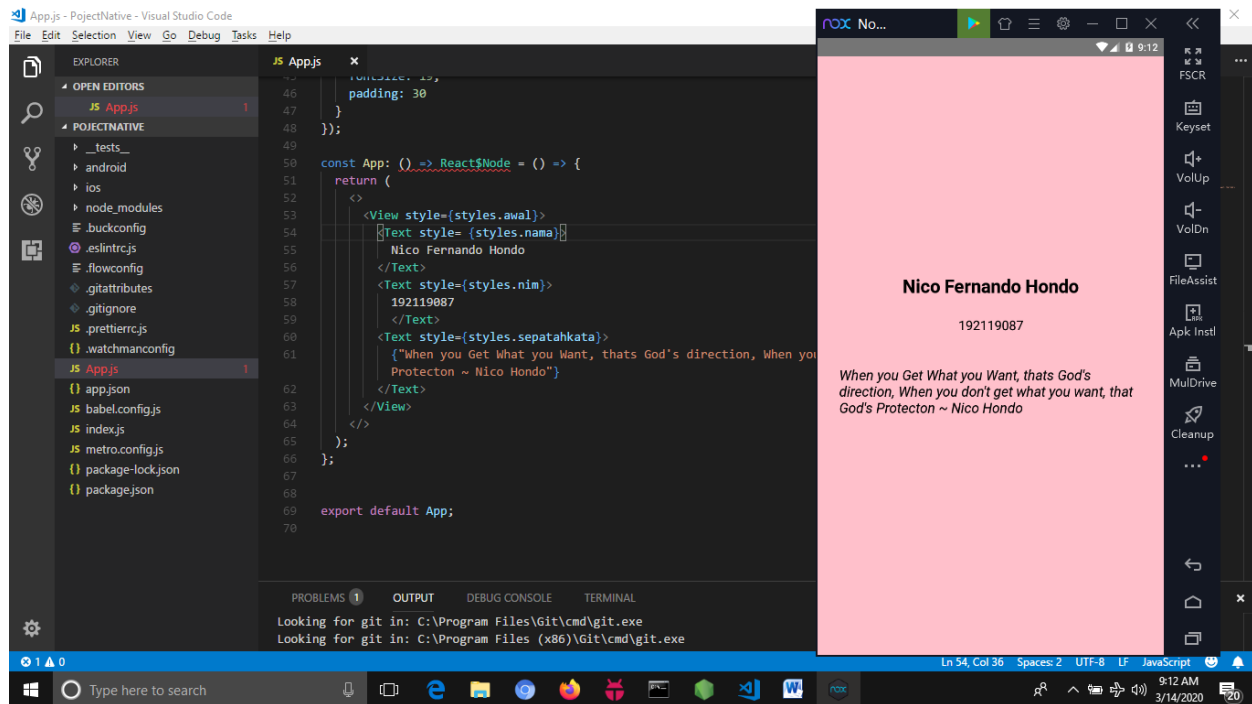

The screenshot shows the Visual Studio Code editor with the file 'App.js' open. The Explorer sidebar on the left shows the project structure. The main editor area displays the following code:

```
import { StyleSheet, Text, View } from 'react-native';
import { green, yellowgreen } from 'color-name';
const styles = StyleSheet.create({
  container: {
    backgroundColor: 'pink',
    color: '#ffffff',
    alignItems: 'center',
    flex: 1,
    justifyContent: 'center'
  },
  name: {
    fontWeight: 'bold',
    fontSize: 25
  },
  nim: {
    marginTop: 25,
    fontSize: 18,
  },
  sepatangkata: {
    marginTop: 13,
    fontFamily: 'Times New Roman',
    fontStyle: 'italic',
    fontSize: 19,
    padding: 30
  }
});

const App = () => React$Node = () => {
  return (
```

The bottom status bar shows the Git icon and the text 'Looking for git in: C:\Program Files\Git\cmd\git.exe'.
